BEFORE WE
EXPECT TRUST FROM
OUR CUSTOMERS,
WE PROVIDE EVIDENCE
that's us!

ENVIRONMENT & SUSTAINABILITY *that's us!*

Sustainable management and careful use of resources are a matter of course for us and part of our corporate philosophy. This basic idea is consistently integrated and lived in our work processes.

We are proud to be the first certified manufacturer of partition systems and lockers in Germany to operate according to the FSC™ and PEFC guidelines.

PEFC - registered

We pay attention to a sustainable supply chain in which our products are procured under ecological, economic and socially just aspects.

FSC™ - certified

As the first certified manufacturer in the area of partition systems and lockers in Germany, we make an active contribution to the protection of our earth with this future-oriented procurement method. We supply almost our entire range from sustainable wood in accordance with the specifications of the FSC™.

On request
the products are
available with
FSC™ certification

MADE IN GERMANY *that's us!*

Our products are manufactured for you at the company site in Horhausen, Rhineland-Palatinate. This is the only way we can guarantee the high quality standards we set for our products.

PREQUALIFIED *that's us!*

We are registered in the list of prequalified construction companies with the number 010.049740, proving that we are qualified for the products and services we offer.

INNOVATIVE & DESIGN-ORIENTED *that's us!*

With our design-oriented and innovative products, we convince not only our customers, but also national and international committees.

Toilet partition walls and privacy screens

Contact-free opening and closing.

Contact-free into the toilet partition.
Ensure permanent hygiene in the sanitary room.

- Look&Wave is the first contact-free toilet partition. That means you can open and close the cubicle door without touching it, thanks to modern LED and sensor technology
- Look&Wave is an innovative concept that considerably reduces the transmission of germs
- Look&Wave closes the hygiene gap in sanitary facilities and enables the realisation of completely contactless toilet rooms
- Look&Wave makes the sanitary room concept to a contemporary and fresh hygiene experience for visitors and employees
- Look&Wave leaves the user with a lasting positive impression and a good sense of hygiene

[More about the product variety Look&Wave >](#)

Contact-free opening and closing.

Optimal visitor guidance. Intuitive operation

- Large LED displays with sensor area make it easier to find a free cubicle even when entering the room
- Intuitive operation of the sensor
- Optimal visitor guidance especially in highly frequented facilities

Opening the door

- Easily hold your hand in front of the marked sensor area and the door opens

Locking the door

- No contact is required for locking either
- Easily hold your hand in front of the sensor area in the cubicle and the door closes and locks
- As soon as the lock is activated, the LED indicators inside and outside switch to red
- This gives security to the user and signals the occupied status in the outside area

Unlocking the door

- By holding your hand in front of the sensor area, the lock unlocks and automatically the door opens

The Look&Wave technology

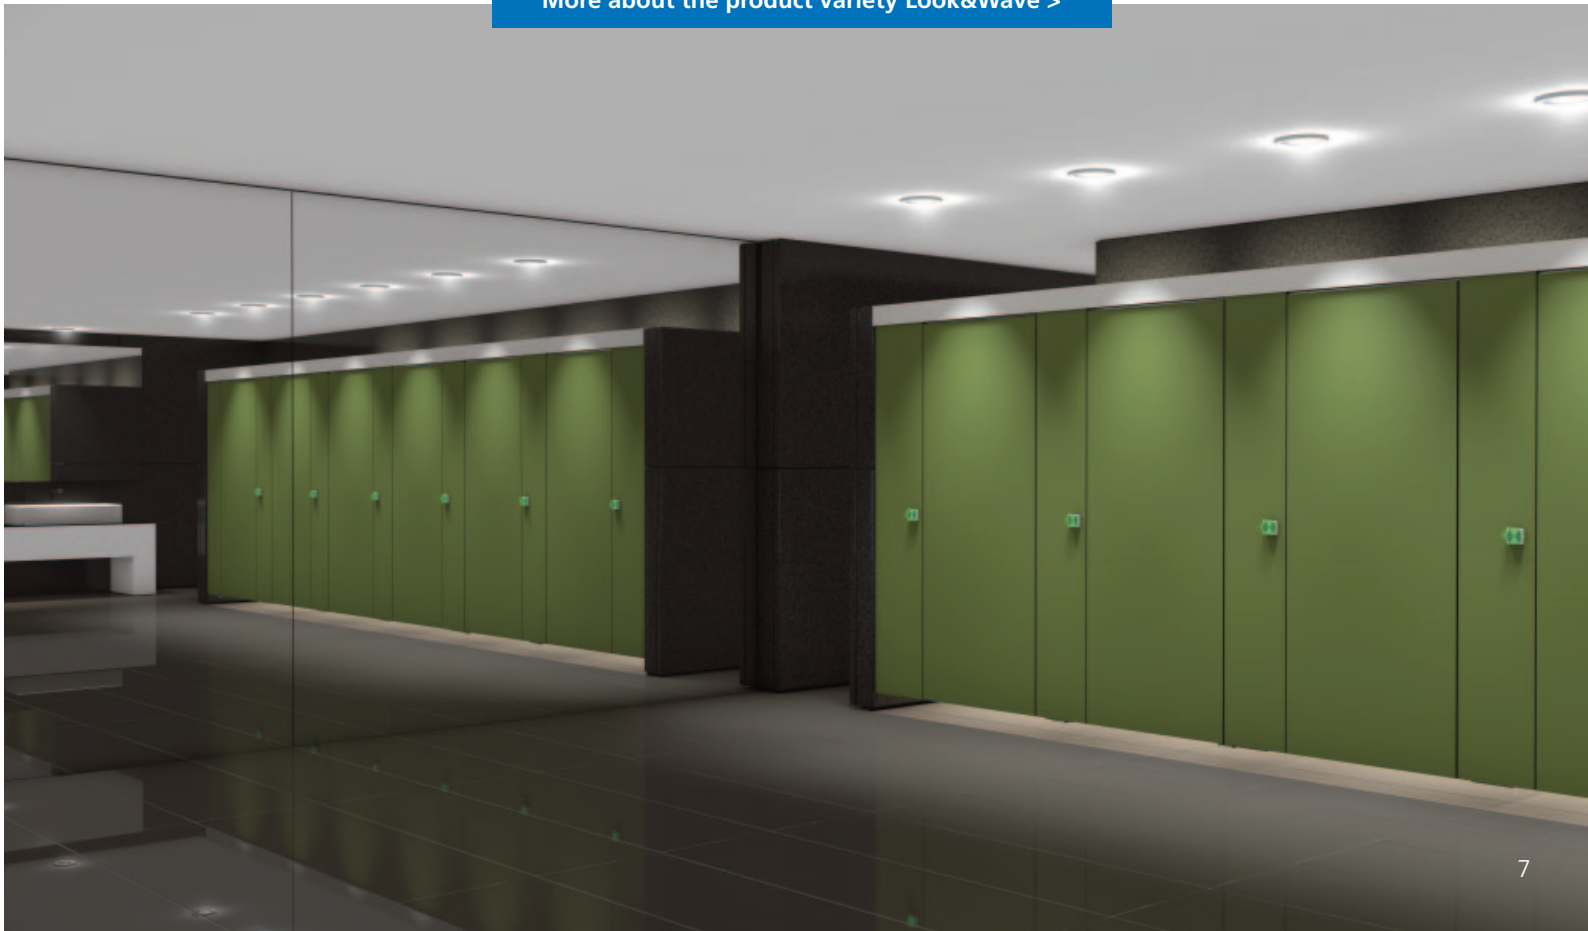

- With the Look&Wave technology, contactless operation of the toilet cubicle is possible
- The Look&Wave technology offers an integral hygiene concept in the sanitary area in combination with other sensor systems for e.g. WC flush, water tap or soap dispenser
- The Look&Wave technology gives the user a pleasant clean feeling
- **Germ and bacteria transmission is reduced to a minimum by the Look&Wave technology and hygiene is permanently ensured**

[More about the product variety Look&Wave >](#)

Touch-free operation, thanks to modern sensor technology.
Ensure permanent hygiene.

BLACKLINE

BLACKLINE. Uncompromisingly black.

A very special design variant: the BLACKLINE. All BLACKLINE profiles and fittings are finished in elegant black to match the black tile surfaces. This combination creates a special look that gives the sanitary room an exclusive and high-quality ambience.

(1)

WC partitions from the BLACKLINE series

(1)

EF-3 ALTUS BLACKLINE

- WC partitions completely in the color black
- Equipment such as bumpers, hooks, handle sets matching in black
- 36 mm thick sandwich elements with HPL surface
- Maximum privacy thanks to the ceiling-high construction
- Flush front of the EF-3 ALTUS BLACKLINE WC partitions
- Ideal for wet areas, as the construction is completely waterproof

(2)

SVFG40 ALTUS BLACKLINE

- WC partitions completely in the color black
- Maximum privacy thanks to the floor-to-ceiling construction
- This creates a separate private area for users
- Composite elements made of chipboard, 40 mm thick with 0.9 mm HPL surface
- WC partition with flush front
- Edges made of high-quality lacquered real wood inserts, also in the trend color black
- The right choice for dry rooms

(3)

SVF30/S ALTUS BLACKLINE

- WC partitions completely in the color black
- ABS edging in black, like the panel surface
- Room-high construction for maximum privacy
- 30 mm thick composite elements made of chipboard with 0.9 mm thick HPL surface
- Absolutely flush front on the outside of the cubicle of the sanitary partition
- Particularly easy to clean, durable and robust

(2)

(3)

Toilet partitions made of glass. Advantages in the sanitary area:

- Material properties ensure very high quality
- Exclusive atmosphere
- Especially hygienic
- Easy to clean
- Robust and durable
- High resistance to mechanical damage
- Elegant design
- A perfect impression even after many years of use
- The glass material ensures careful handling and thus prevents vandalism

PREMIUMLINE
Exclusive as your requirements

(1)

(2)

(3)

(4)

The VENTO glass cubicle sets new standards.

For both glass toilet partitions and floor-to-ceiling constructions. A highly exclusive and unique system.

(1)

Clean and pure look. Elegant. Perfectly formed

- Continuous glass elements, without visible fittings
- Various high-quality door handle variants are available
- Glass available in almost all RAL colours
- The option to choose individual prints and patterns

(2)

Strong construction

- Door made of a 50 mm thick, torsion-resistant sandwich construction
- Including 5 mm thick ESG-H panel on both sides
- Aluminium inner frame
- Doors up to 3000 mm high

(3)

Door function of the VENTO system

- The door is guided through a floor and ceiling bearing
- Convenient self-closing function
- Soft-close function enables silent closing

(4)

Door handles

- High-quality door handles with discreet vacant/occupied indicators on the outside of the cubicle. This image shows the door handle in chrome finish

PREMIUMLINE
Exclusive as your requirements

(1)

(2)

(3)

(4)

(5)

Toilet partitions made of glass type VENTO

(1) + (2)

Toilet partition

- Wall and ceiling connections as a subtle shadow gap
- The construction hides connections
- Tolerances can be compensated

(2)

Vanity unit VITRUM WT

- Vanity top made of 10 mm safety glass (ESG-H) with integrated opening for paper insertion
- Glass colour selection according to RAL colour chart
- Lower cabinet made of waterproof HPL solid grade laminate panels, panel colour freely selectable
- Washbasin shapes, glass cut-outs and installation variants according to customer requirements
- Hygienic surfaces and easy to clean
- Optional motif prints possible

(3)

Flush front

- Stainless steel one-hand door knob with almost flush stainless steel rosette on the outside of the cubicle
- Very discreet fitting
- Particularly elegant and high-quality appearance
- Extremely easy to clean due to the construction
- Only for inside opening doors

(4) + (5)

Door construction

- Completely internal aluminium frame
- Only glass is visible at first sight
- Door fittings available in aluminium, chromed or stainless steel as shown here
- Frames are also powder-coated available in the same RAL colour as the respective glass

Toilet partition walls and privacy screens

Toilet partitions made of glass type VITRUM III

(1)

Partition walls with motif print.

Individual print with lasting impression

- Almost unlimited design possibilities through individual logos, images or photo motifs
- Theme- and object-related interior design perfectly realizable
- WC facility becomes a design element of the sanitary room
- The motif is already printed onto the glass during production
- Partition walls with motif print reduce damage due to vandalism by their appearance

(2)

Wall-mounted urinal screens made of safety glass

- Perfectly matched to the design of the toilet partitions
- Fastened with stainless steel brackets (4 pieces)
- Particularly hygienic and easy to clean due to the construction and material properties

(3)

Individual colour design

- Colour selection is based on the RAL colour chart
- Almost limitless design options
- Colour combinations and motif prints also available

(4)

Elegant special solution with VITRUM III

- Special solution without covers between the individual doors

(2)

(3)

(4)

Toilet partition walls and privacy screens

Toilet partitions made glass type VITRUM II

(1)

Individual motif prints

- For the design of perfectly coordinated room concepts
- Customer-specific motif prints enable unique partition wall designs
- The motif is already printed on the carrier plate during glass production. This gives the glass the same high surface quality as conventional screen printing
- Themed concepts can thus also be perfectly realised in the sanitary area

(2)

Toilet partition with a floating look

- Construction with recessed feet and recessed head rail
- Elegant and stable aluminium fittings
- Easy-to-grip aluminium door knob
- Smooth surfaces make cleaning easier
- Particularly hygienic due to the material properties

(3)

Exclusive, durable and easy to clean

- Cubicle system made of safety glass (ESG-H)

(4)

Toilet partition as corner variant

- Made of safety glass (ESG-H)
- Glass urinal screens as a wall-mounted construction
- Particularly easy to clean

Privacy screens made of glass

- Wall hanging construction
- Made of enamelled safety glass (ESG-H)
- Mounting by means of discreet aluminium brackets
- Hygienic and easy to clean
- Waterproof
- Easy floor cleaning due to the construction
- Colour selection according to RAL colour chart
- Motif prints optionally possible
- Privacy screens will be produced acc. to the building site dimension

(2)

(3)

(4)

Room-high systems in the sanitary area.
More privacy for your guests.

Advantages:

- More privacy due to the closed-off area
- Well-being of the guests is increased
- Optimal use of the available space, as elements are significantly narrower than classic drywall
- The option to select individual colours and motifs, making the system a design element
- Easy cleaning thanks to smooth elements with internal wall and floor connections
- Faster and cheaper than conventional drywall

Room-high toilet partitions, type EF-3 ALTUS

(1)

Premium product EF-3 ALTUS

- Smooth, flush-fitting front
- Continuous elements
- Completely water resistant
- Invisible fitting solutions
- The front shown here is also curved.
Just one of many options

(2)

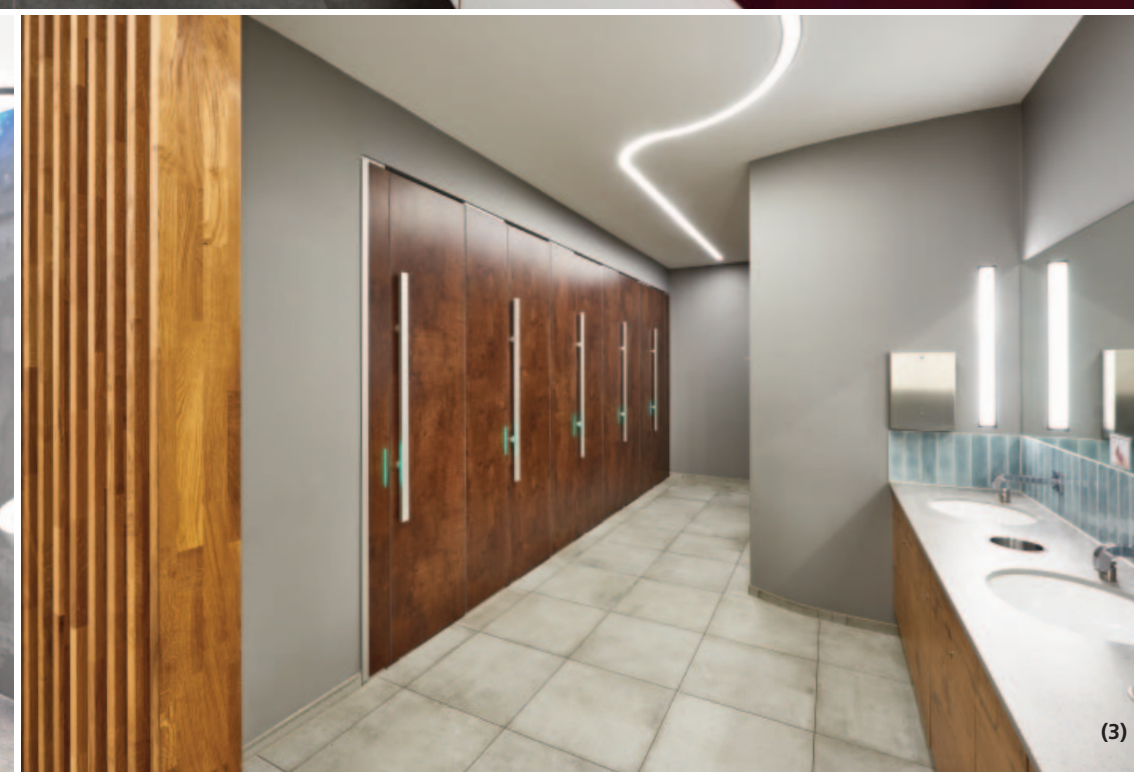

EF-3 ALTUS with handlebar and LED light strip

- Ceiling-high construction
- Separate private area for users
- Comfortable handlebar
- Highly visible LED strip for optimal visitor guidance

(3)

Design options

- Panel decors and door handles are realized entirely according to customer requirements
- WC partitions here shown with elegant handrail and energy-saving LED display next to the handle

(1)

(2)

(1)

Room-high toilet partition EF-3 ALTUS with LED display

- Clearly visible, LED free/occupied display
- Signals the free/occupied state from a distance
- Minimalistic stainless-steel one-hand door knob as an option
- Motifs and patterns can be created to the customer requirements

(2)

Floor-to-ceiling corner system

- Concealed floor, ceiling and wall connections
- Individual printing
- Motif is printed during the manufacture of the HPL panels
- Protective overlay makes the surface hard-wearing
- Easy to clean and robust surface

(1)

(2)

(3)

(4)

Room-high toilet partitions, type SVFG40 ALTUS

(1)

Room-high toilet partition with wooden decor

- For particularly elegant and high-quality sanitary rooms
- Ideal solution for dry areas
- A wide range of wood grains are available
- Construction from 40 mm-thick chipboard panels
- Toilet partitions and wash basin in the same design

(2)

Optional for SVFG40 cubicles

- Hinges that are completely hidden in the rebate
- Flush fitting on the inside and outside of the cubicle
- Also available with self-closing function
- Door edges milled from high-quality, real wood edge material
- Various types of wooden colours and uni colours available

(3)

Optional special frame construction for the doors

- Allows continuous doors without top panel
- Frame construction guarantees low weight with high stability
- Perfectly coordinated with the WC partition walls the washbasin solution completes the sanitary room concept

(4)

Hardware solutions

- We have a wide range of hardware solutions to choose from
- Can be adapted to structural conditions (e.g. existing access doors)

Toilet partition walls and privacy screens

(1)

(2)

(3)

(4)

(1)

Room-high toilet partition type SVFG40 ALTUS

- Front elements without joints from floor to ceiling
- Top panel fits flush above the doors
- Upper panel mounted without visible fasteners
- Edges made of varnished real wood
- Perfectly suited for dry rooms

(2) + (3)

Tailored customer motif

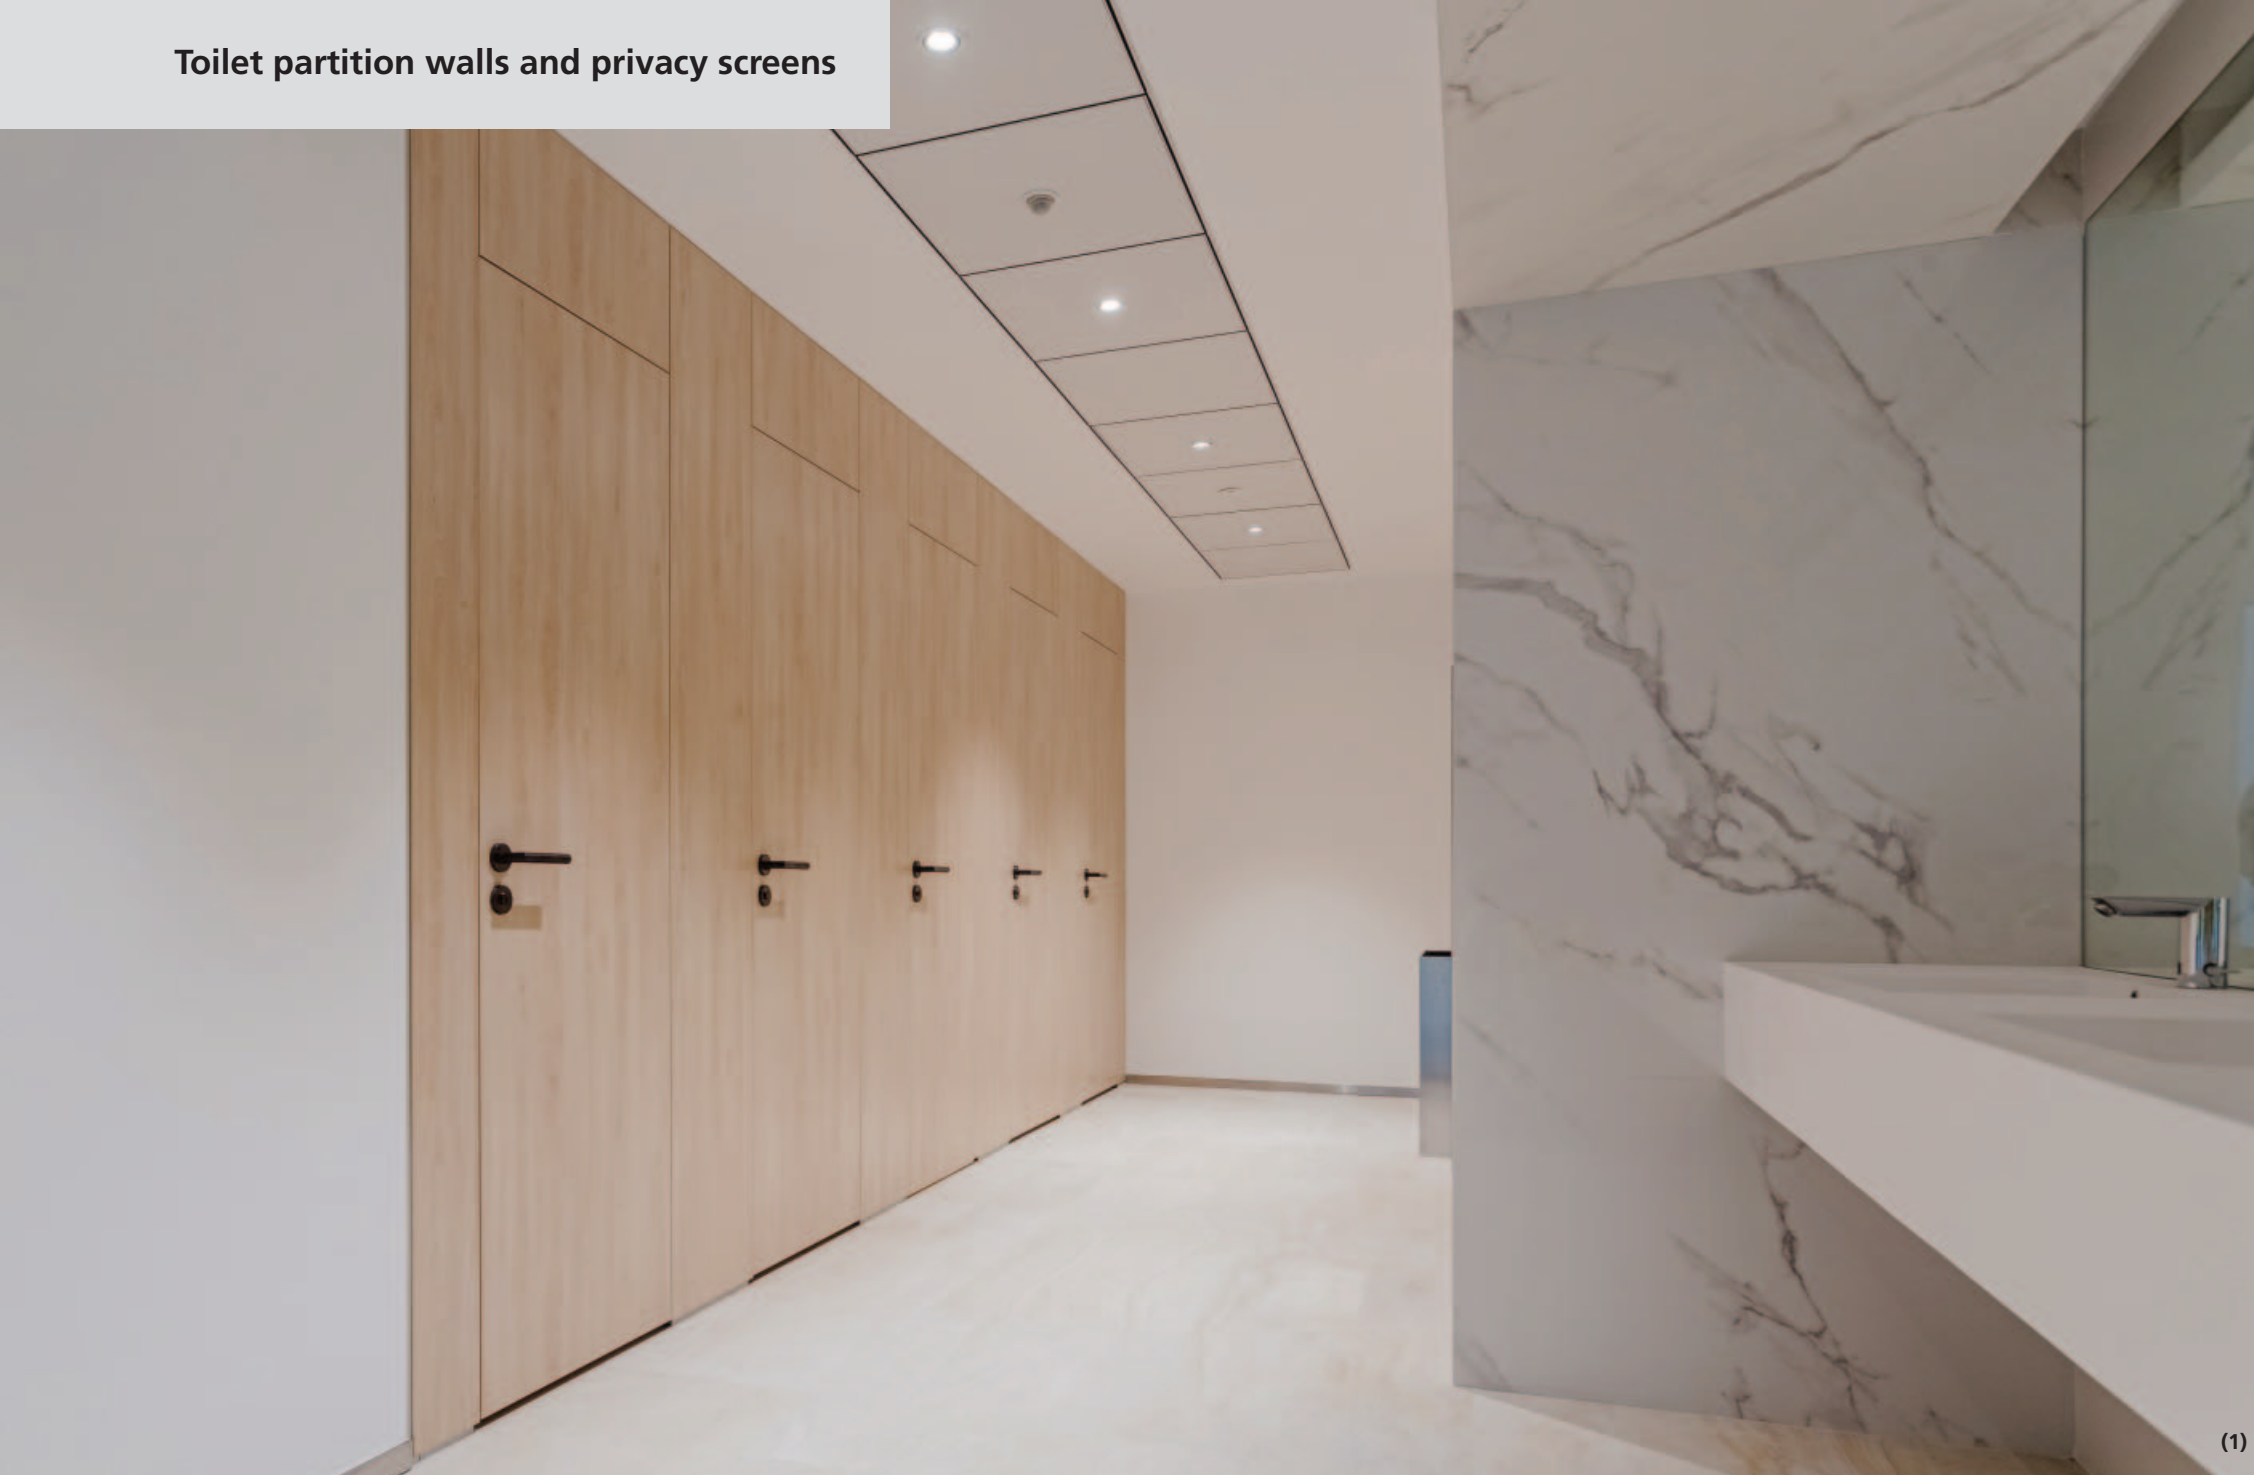

- Image is pressed into the laminate during the production of the panel
- Extremely scratch-resistant and robust surface

(4)

Wall-mounted privacy screens type SV30

- Made from 30 mm thick melamine-coated solid chipboard
- All-round ABS edge in the same color as the panel
- Anodized aluminum wall brackets
- Easy-to-clean surface
- Wide range of colors
- Optional motif prints
- Privacy screen is made to measure

Toilet partition walls and privacy screens

Room-high toilet partitions type SVF30/S ALTUS

(1)

- Doors with flush-mounted top panel
- Wood decor provides a noble contrast and an exclusive room ambience
- Particularly easy to clean thanks to the smooth surface and the material properties

(2)

- Variant without top panel
- Can be constructed in one piece up to a height of 2250 mm
- Fronts flush-fitting without visible fittings
- Easy cleaning and maintenance
- Doors with self-closing hinges optional
- Doors with self-opening hinges optional
- More space-saving than conventional drywall
- Visually very appealing
- Easy to clean
- Large variety of colors and decors

(3)

- Matching privacy screens type SVF30
- Wall-mounted construction
- Made of 30 mm thick chipboard
- ABS strips and panels in the same colour
- Fastening by means of wall brackets made of anodized aluminum
- Floor clearance ensures an effective cleaning
- Easy to clean surface
- Wide range of colours available
- Motif prints are optionally available
- Privacy screens will be produced acc. to the building site dimension

Room-high toilet partitions, type SVF30/S ALTUS

The SVF30/S ALTUS toilet partition is the ideal entry-level solution for closed toilet partitions. This type of system consists of 30 mm thick chipboard panels and is ideally suited for the design of dry room areas.

(1)

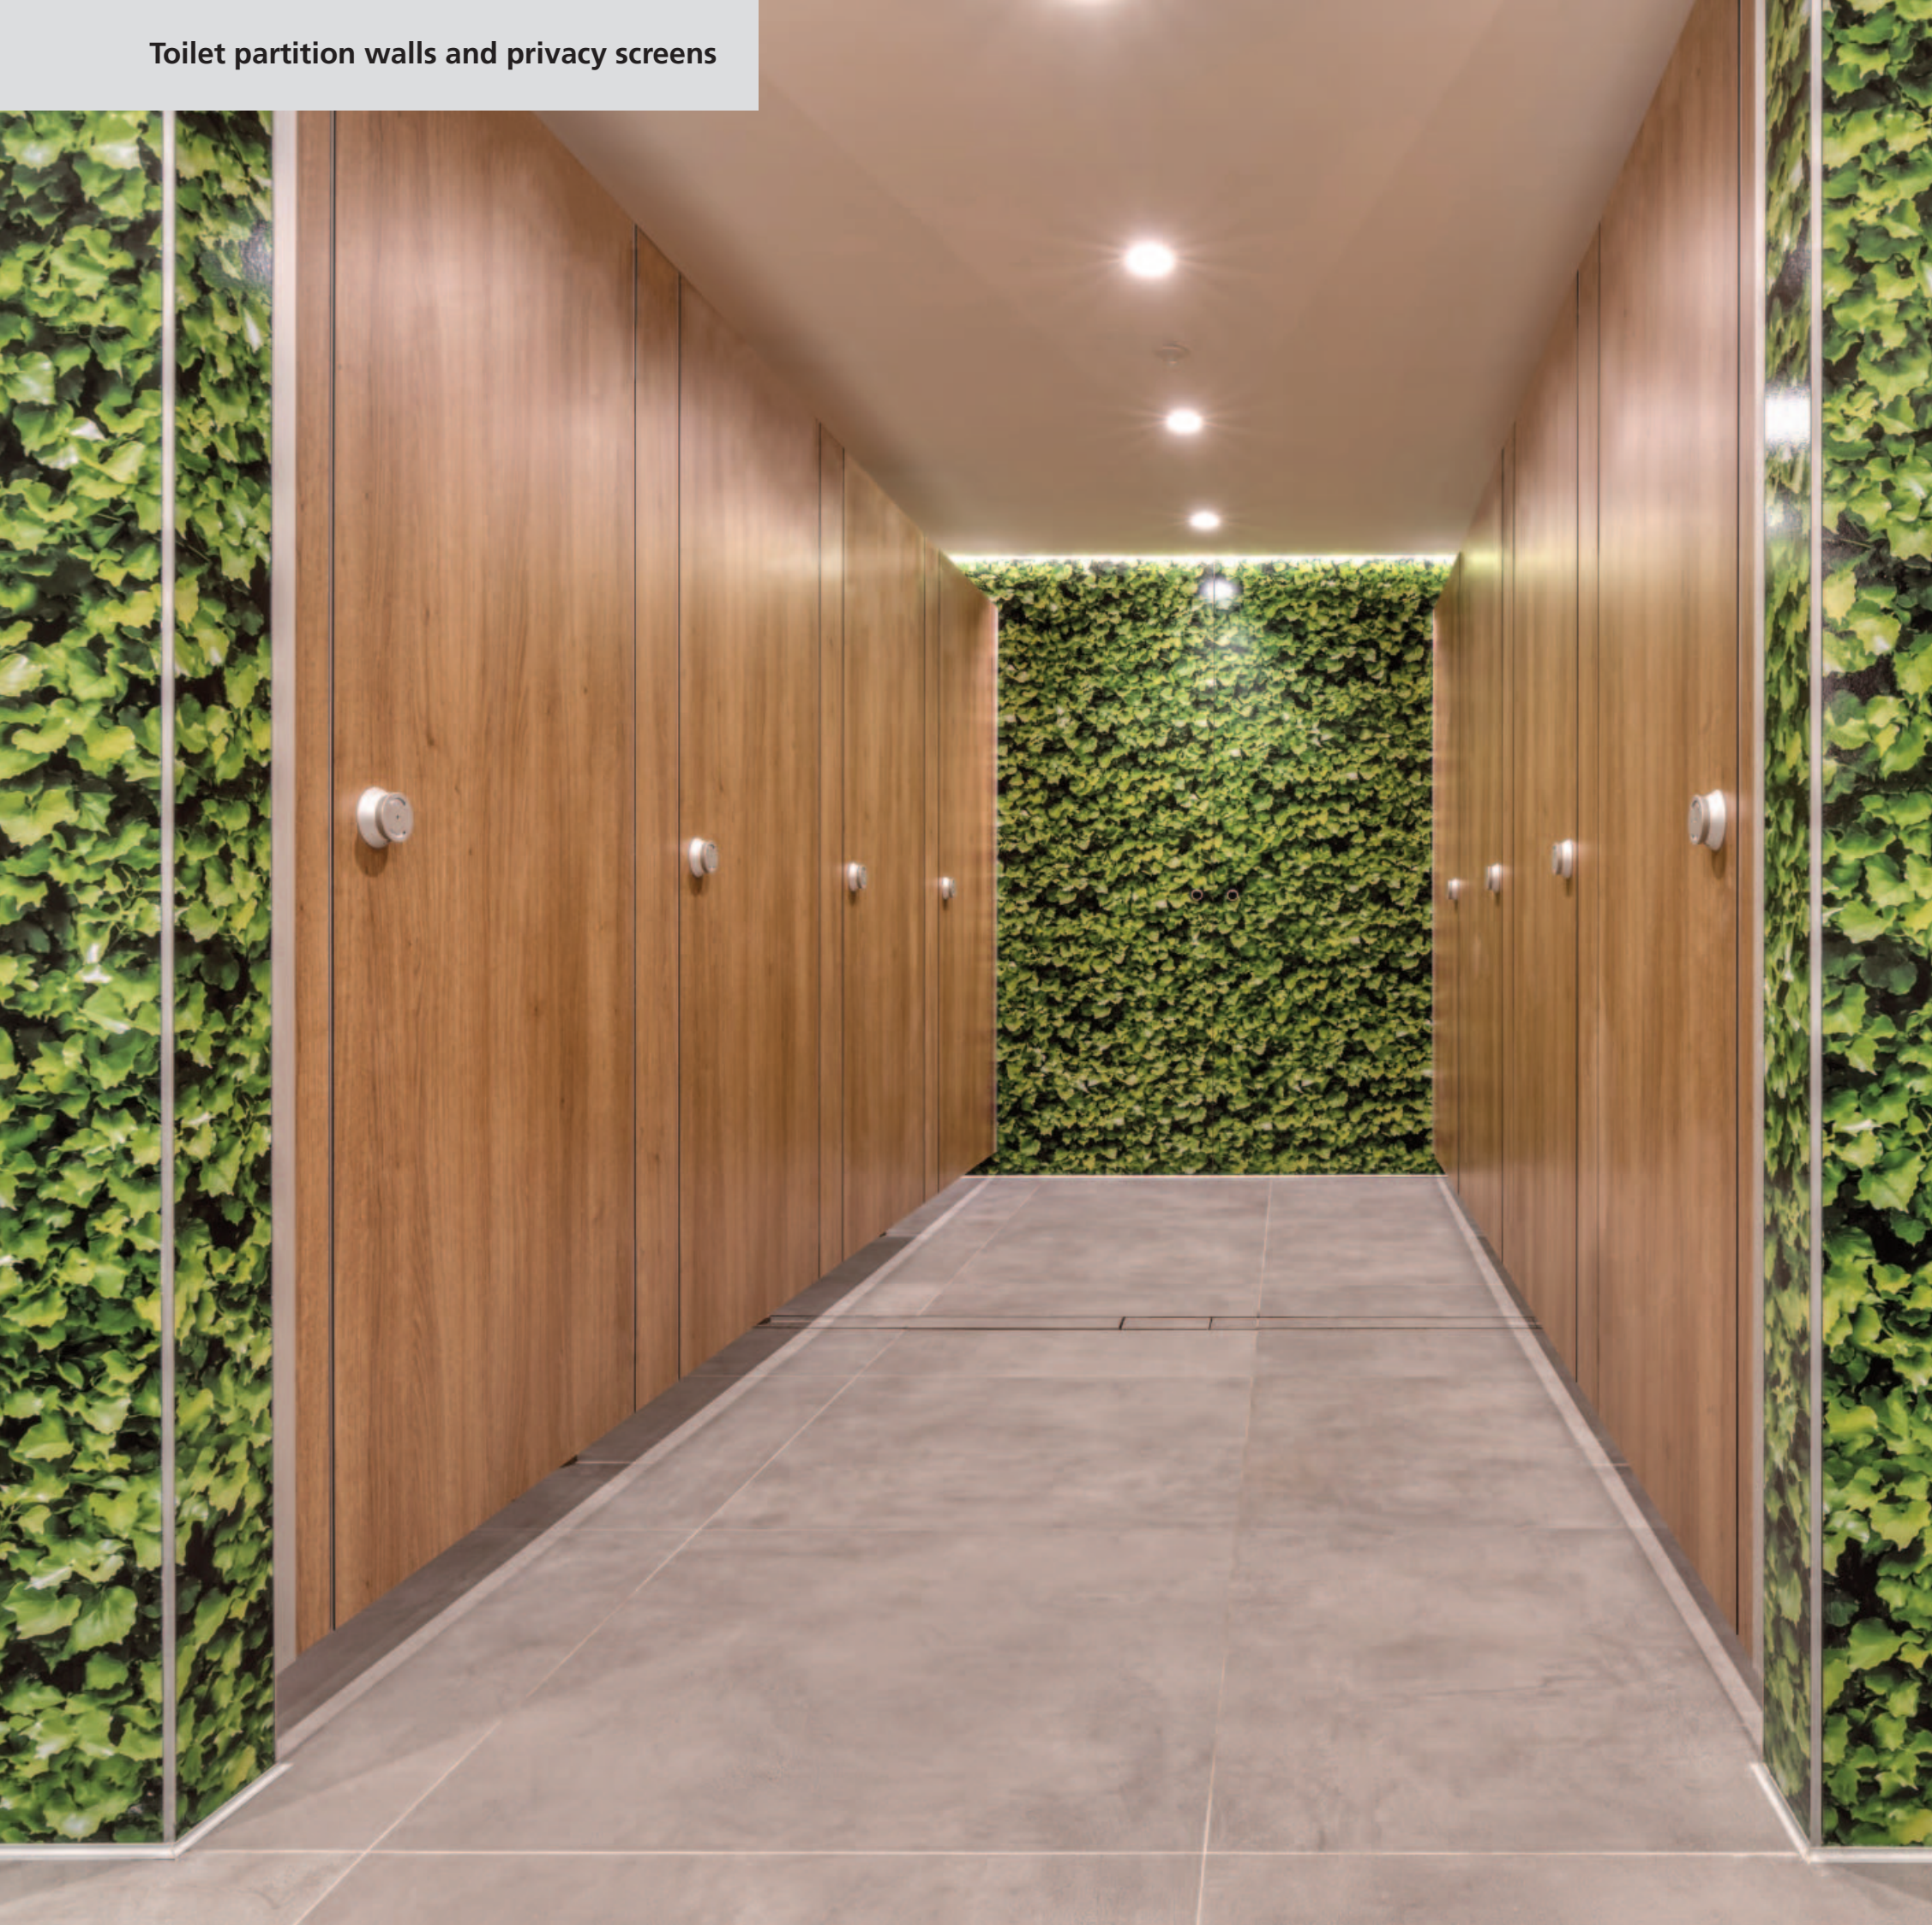

Toilet partition

- Quality chipboard with 0.8 mm laminate on both sides
- Stable and durable construction
- ABS edging in the same colour as the panels
- Wall-mounted privacy screens made of safety glass

(2)

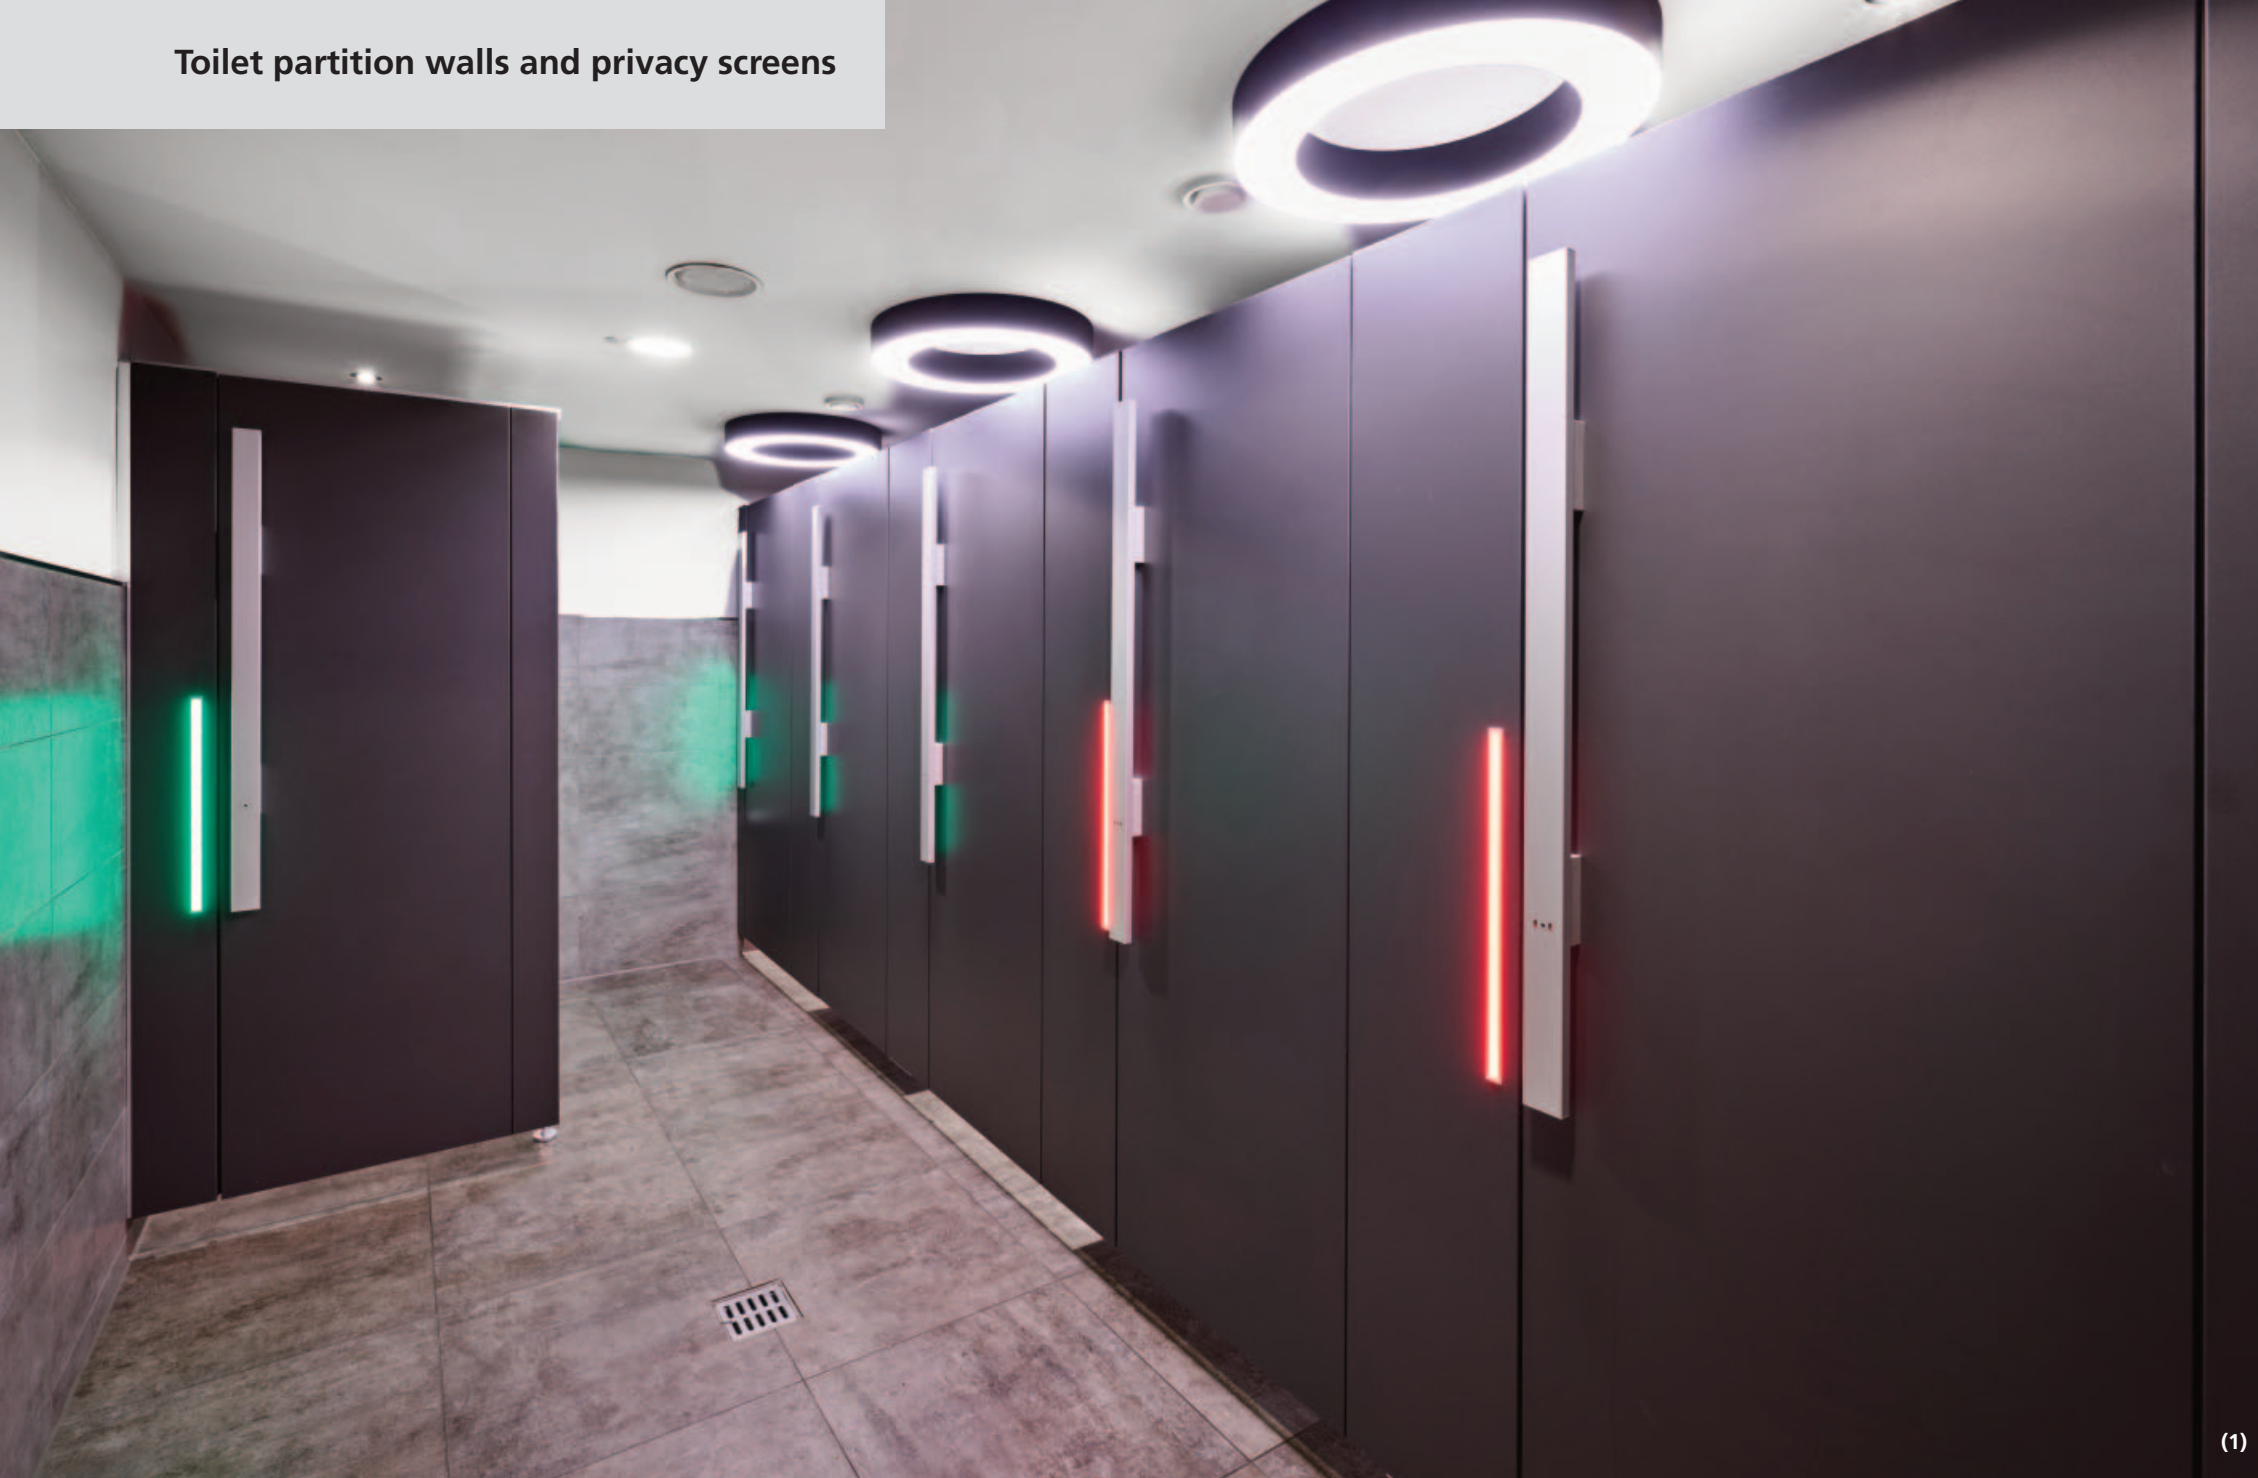

Top panel flush-fitting above the doors

- Invisible fastening using compression spring pins
- Stainless steel hinges with treads made of high-performance polymer
- Hinges embedded flush in the edge
- Self-closing function optional

Toilet partitions with floating optic. Advantages:

- Exceptional and exclusive construction
- Particularly attractive design
- A highlight in the sanitary room
- Easy floor cleaning
- Faster and more efficient cleaning and maintenance

**Toilet partitions with floating optic
type EF-3 JUMP**

(1) + (2) + (3)

- Construction with recessed feet and recessed head profile
- In systems with large cubicle widths, the front parts are stabilised by a support leg

(1)

Comfortable handlebar with LED light strip

- The colored LED lights enable optimal visitor guidance. As soon as visitors enter the restroom, the LED light strip clearly indicates which toilet cubicles are available

(1)

(2)

(3)

(1)

(2)

(3)

(4)

(5)

Toilet partitions with floating optic type SVF30 JUMP

(1)

Sanitary partition wall

- Recessed feet and head rail mean the system appears to floating
- Particularly easy to clean
- Made of 30 mm chipboard panels
- Excellent for the design of dry rooms
- The wall connections are made by shadow gaps (not possible with cut outs)
- Smooth and easy-care fronts

(2)

Privacy screens

- Made of 13 mm HPL material
- Intense colours create a successful contrast
- Wall-hanging construction using stable wall brackets made of anodised aluminium
- Particularly easy to clean and hygienic
- Printed motif walls are another visual highlight and a central design element
- The choice of motif is left entirely to the customer

(3)

Wash stands

- Made of 13 mm waterproof HPL material
- A similar colour and material concept creates harmony

(4) + (5)

Sturdy construction

- Stable aluminium bracket
- Stable head rail, recessed by 150 mm
- The fittings are not visible in the front and make the system appear suspended and light
- Stainless steel or aluminium feet recessed under the centre partition
- Additional stabilising with aluminium bracket prevents breaking
- Connection between partition walls and front wall is done under the elements using a T-connector

Experience world sanitary room. Toilet partitions with motif print.

Dull and colourless in the WC room was yesterday. Your guests want to feel completely comfortable during their entire stay with you. This naturally includes the time spent in using sanitary facilities.

The choice of colour and design also plays an important role in the sanitary room. Colours influence our well-being. A pleasant atmosphere should therefore also be created in these areas.

Dive into another world for a brief moment. You can inspire your guests with an impressive performance even in the quietest of places. The combination of colours and motifs makes unique theme worlds possible, which, depending on the implementation, are literally brought to life. Theme concepts of your business can be realised in this way down to the last detail. This is how sanitary rooms can be individual, colourful, extraordinary, and grandiose with Schäfer Trennwandsysteme.

(1)

(2)

(3)

(4)

Toilet partitions and wall cladding with motif printing type EF-3

(1)

Sanitary partition wall

- Suitable for wet and dry rooms
- Excellent design, very stable, completely water resistant
- Flush-fitting fronts make maintenance easier
- Made from 36 mm thick sandwich elements with 3 mm thick HPL panel on both sides
- Inner torsion-resistant aluminium frame
- The door rebate is formed by the inner frame
- Noiseless door closing provided by damping rubber offers a big advantage in highly frequented areas
- Finger protection for even greater safety

(2) + (3) + (4)

Wall cladding

- Uniform design concept creates spaces for well-being
- Back walls and toilet partitions in the same design, implemented for all areas of the sanitary room
- Very easy to clean
- Individual choice of motif
- Almost uncountable colour combinations
- The appearance of toilet partitions with motif prints reduces damage caused by vandalism

Standard sanitary partition wall type SVFG40

- WC partition walls made of 40 mm chipboard panels with 0.9 mm HPL surface
- Completely flush front
- Easy to clean and maintain construction
- Edges made of varnished real wood
- Suitable for drying rooms
- Large variety of decors and colours

(1)

Standard toilet partitions

(1) + (2)

Cubicle system type SVF30

- Made of solid chipboard coated with melamine resin
- With coloured ABS edging
- The alternative if design is required in addition to pure functionality
- Flush system with smooth fronts, even with doors opening outwards
- This is made possible by a special stop profile
- Fast wall cleaning
- Effective edge protection
- High-quality and attractive appearance

(3)

Cubicle system type SV30

- Made of melamine-faced chipboard
- The right choice if a stable and easy-care system type is required in a basic version
- The ideal toilet partition system for sanitary areas that are kept dry
- The use of colours creates a new room concept time and again

(2)

(3)

Standard toilet partitions, type VK13

- WC partition walls made of 13 mm solid grade laminate
- Fully waterproof construction
- Suitable for wet and dry areas
- Solid and durable construction
- Large variety of decors and colours
- Individual colour combinations (2) are a design element and orientation aid at the same time
- Customised motif prints optionally available
- Vertical profiles provide high stability. They are additionally drilled into the head profile and guided down to the floor
- Profiles and HPL panels (3) are available in the same colour shade

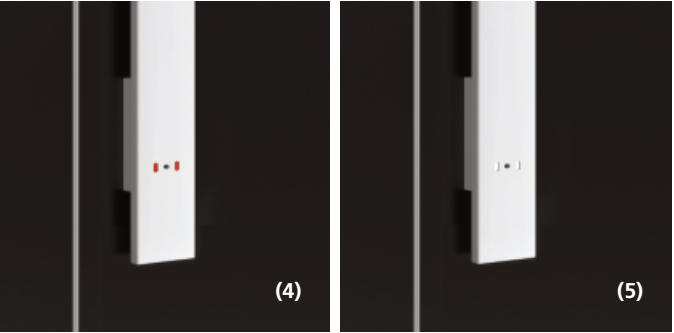

**Handrail for toilet partition, types
EF-3 / SVFG40 / SVF30**

- Matt, natural anodised
- Very easy to clean
- Integrated Free/engaged indicator (4)
- Emergency opening located below. Allows the locked door to be opened from the outside (5)
- Optional available with LED
- Optional energy-saving LED strip shows the locking status clearly visible
- Very good grip because of the body-friendly shape

Possible Variation:

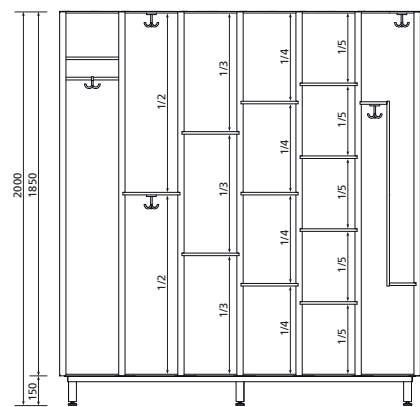

- (1)**
- Handrail adapted to the door length, always until the top edge of the door
 - Optional available: in combination with a LED strip
- (2)**
- Handrail 55 x 1.150 mm
 - Optional available: in combination with a LED strip
- (3)**
- Handrail 55 x 500 mm
 - Optional available: in combination with a LED strip

Cloakroom and staff lockers

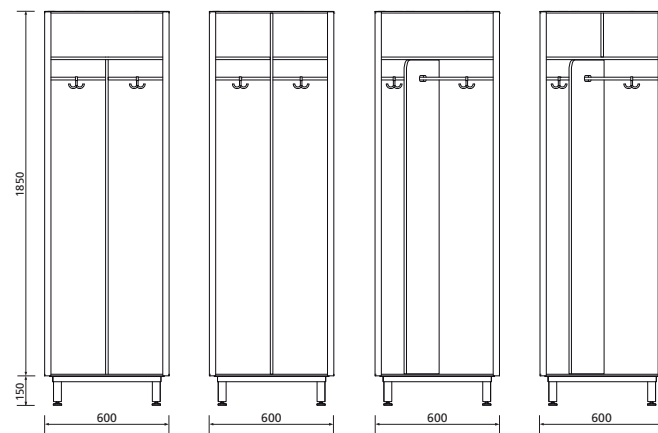

Cloakroom and staff lockers

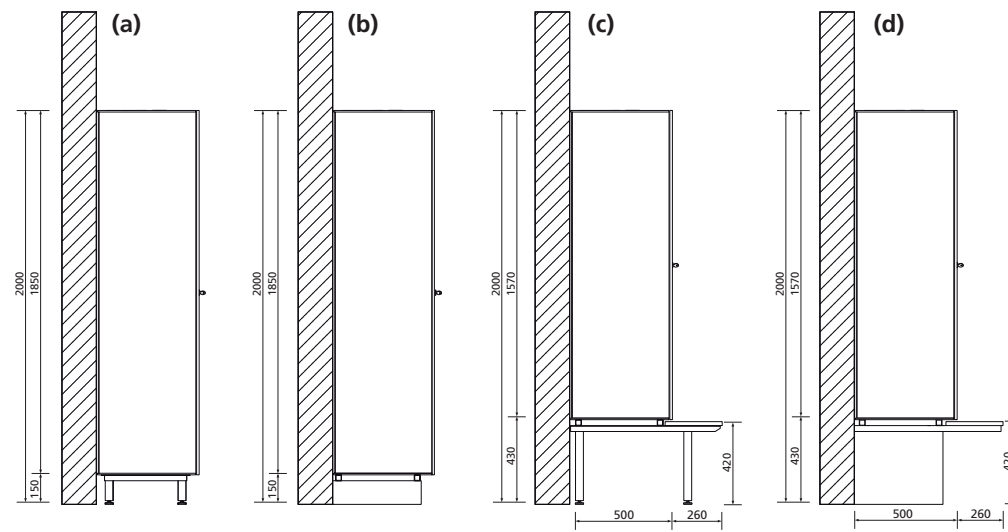

Lockers

- Many different types of locker dividers
- Single or double locker
- Multiple locker
- Z lockers
- Helmet and safe deposit boxes
- Sizes and arrangements are individually adapted to the premises

Staff cabinets as black and white lockers

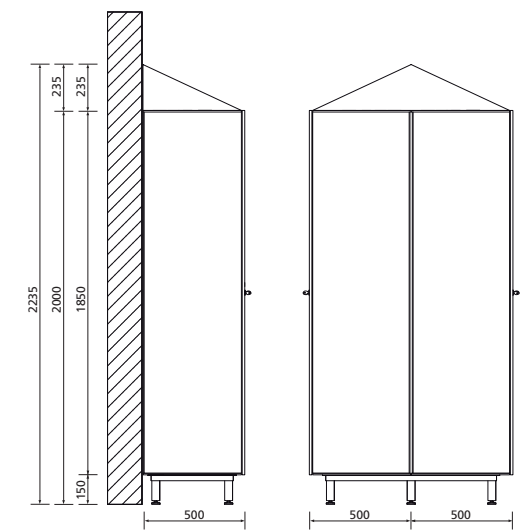

- Available in different versions
- Centre partition in the locker separates street and work clothes, for example
- Centre partition also possible as a movable version

Installation options

The installation options also depend entirely on the structural situations:

- (a) Installation on an aluminum subframe
- (b) Installation on a concrete base tiled on site
- (c) Installation on an aluminium subframe with an integrated pre-built bench
- (d) Installation on a concrete base tiled on site with an integrated pre-built bench

Different types of locker tops

Sloping tops prevent bags or other objects from being placed on top of the lockers. An important criterion, especially in a hygiene area.

Equipment and Accessories

(1)

Very stable door stop made of stainless steel for type GVKF13 lockers

- Installed in single, double and Z lockers
- Limited 95° opening angle to
- Damping reduces noise
- Doors are equipped with concealed, maintenance-free stainless steelhinges

(2)

Opening limiter for lockers of type SGVK13/AGVK13

- Noise dampened
- Guide passes through the body

(3)

Interior fittings for a simple locker type GVKF13

- Hat shelf
- Clothes rail
- Sliding double hooks
- Other interior fittings on customer request

(4)

Interior fittings of a simple locker type SGVK13/AGVK13

- Hat shelf
- Clothes rail
- Two sliding hooks
- Optional perforation of the locker according to customer requirements

(5)

Shelf, wardrobe lockers type GVKF13

- Completely closed
- Practical solid core material
- Rounded body corners
- Sturdy and easy to clean

(6)

- Optional locker bottom made of aluminium tubes
- Water can drip down

(7)

- Perforation or slitting of the locker bottom as an option

(8)

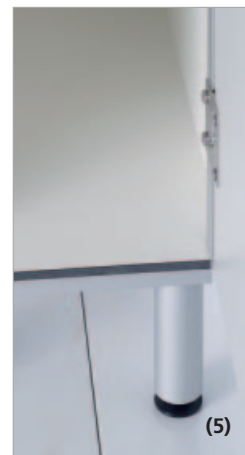

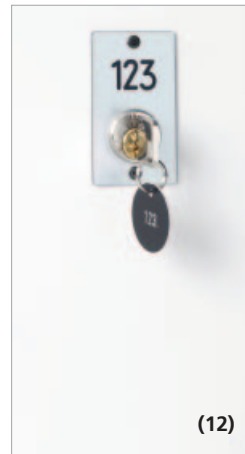

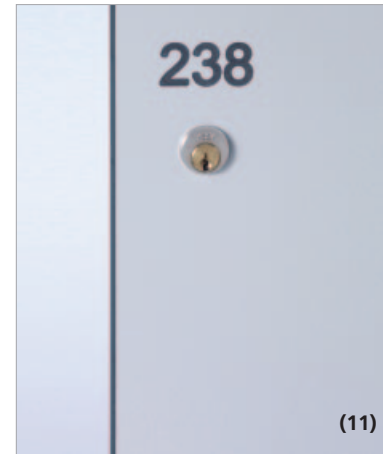

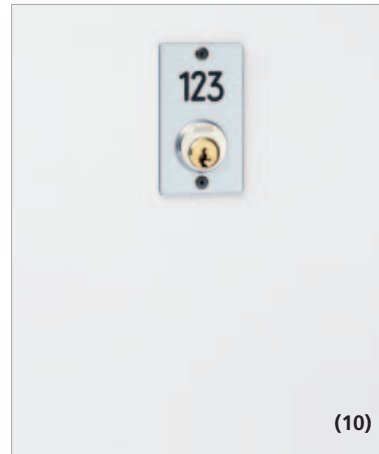

Locking solutions

- E.g. coin locks
- Additional protection against door theft
- Anti-theft bolts for single, double and Z lockers

(9)

Cylinder lever locks

as the main locking system for staff lockers

(10)

Standard numbering for all locker types

- Silver-coloured plastic number plates with black engraving
- Optionally available in aluminium or stainless steel

(11)

- Engraving completely milled

(12) + (13) + (14)

Key bracelets

- Made of different materials
- Key plates and other locker accessories can be designed individually according to customer requirements

(15)

Hangers

- Made of break-proof nylon
- Matched to the standard sizes of the wardrobes

(16)

- Additional clothing net increases the comfort for visitors

(17)

- Coat hanger with additional shoe hook

(18)

- Hanger with shoe hook and net

Shower partitions

Stylish and elegant partitioning.

(1)

More privacy
in the shower area
with shower partitions
by Schäfer
Trennwandsysteme.

(1)

Shower cubicle type EF-3

- Single shower cubicles for more privacy in public shower areas
- Individual in layout and design
- Robust and sturdy construction
- Made of 36 mm thick sandwich elements with 3 mm HPL overlay on both sides
- Quick cleaning due to smooth surfaces

(2)

VITRUM. The elegant glass variant

- Made of high quality and sturdy safety glass (ESG-H)
- Absolutely waterproof construction
- Particularly easy to clean
- Shape, colour and size can be made according to customer requirements
- Brings elegance and style into the shower area
- The material glass offers countless design possibilities
- Colour, size and shape are adapted to the respective project
- Individual motif prints are also possible

(3)

Shower partition wall type EF-3

- More privacy in the shower area
- Ideal splash protection
- Large variety of decors and colours

(2)

(3)

Safe deposit systems

(1)

(1)

Safe deposit system, type VITRUM GS

- Doors made of safety glass
- Customised motif
- Very functional and exclusive overall solution
- Safe deposit boxes flush with the glass front

(2)

GVKF13 safe deposit box system

- Doors and body made of 13 mm HPL panels
- Sizes and colors freely selectable

(3)

Safe deposit system, type VITRUM GS

- Doors and panels made of safety glass
- Body made of HPL
- Integrated finger pinch protection

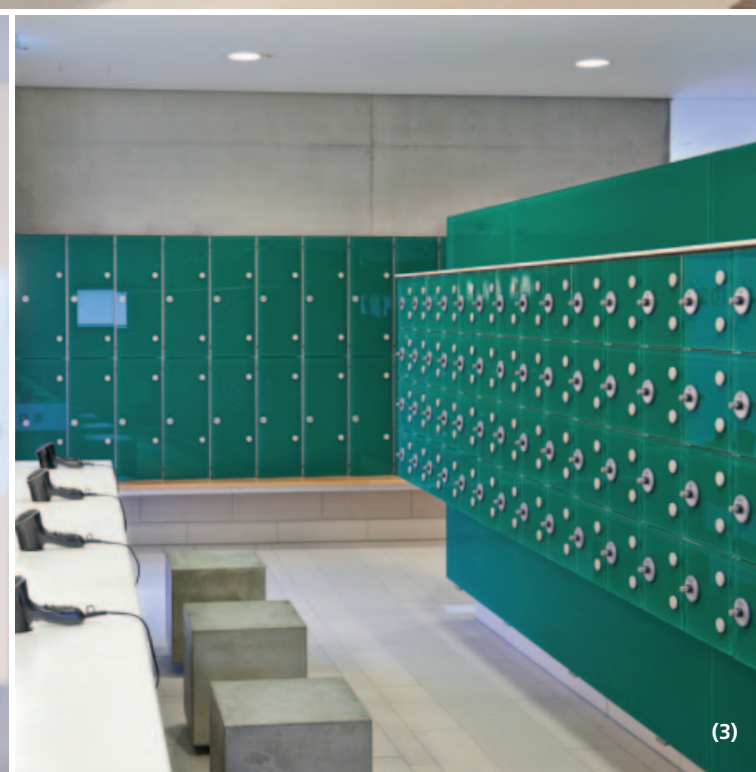

(4)

Helmet compartments

- Recessed flush into a niche
- Particularly space-saving variant

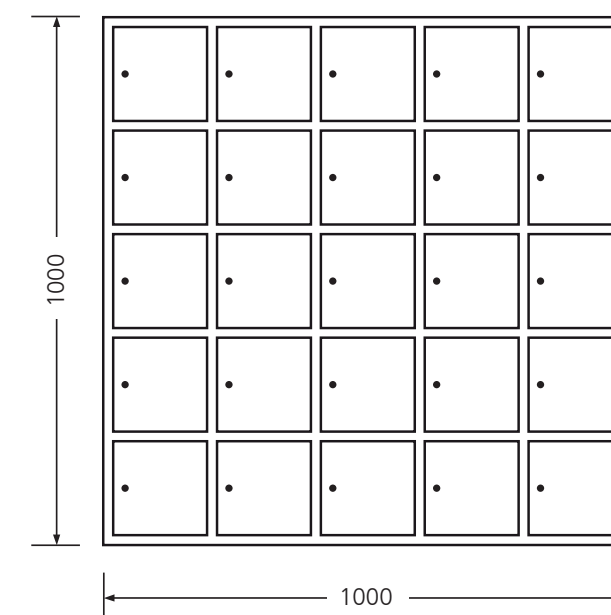

(2)

(3)

(4)

Shelves and storage spaces

VitaSol Therme Bad Salzflun (1)

(2)

(3)

(1) + (3)

Glass shelves and storage spaces made of satinised glass

- Design in shape, color and size according to customer requirements
- Other types of glass: float glass, patterned glass, white glass
- Brackets and connections made of anodized aluminum

(2)
